## **EIE 1100 Micron Cleaner**

### **DESCRIPTION**

EIE 1100 is a bi-polar fast drying odour free solvent cleaner formulated to remove marker ink, rosin-residuals, oily surfaces and fluxes residues with no attack on Plastic materials substrate. An excellent all purpose cleaner and degreaser, it is design to be used as cold-cleaner for applications. EIE 1100 is CFCs free and is safe with most plastic materials type.

### **Advantages vs IPA**

- Dry faster and better cleaning
- Able to clean and remove non-polar contaminants like rosin/grease residues effectively

### **APPLICATION**

EIE1100 Micron cleaner is compatible with most plastic types and elastomer. Prior release for production use, test for compatibility on object to be cleaned. For ink removing application, apply 1100 on areas to be removed and wipe with a cloth or paper towel.

### **PHYSICAL PROPERTIES**

Appearance	Clear Liquid
Sp. Gravity @25°C	0.70 ± 0.01
pH	Neutral (7.0)
Flash Point (T.O.C.)	≤ 5 °C
Auto-Ignition temperature	>360°C
Odour	slight ether

### **DISPOSAL**

Incineration, waste solvent license contractors approved by local regulatory authority.

### **PACKAGING**

25 Litre/carboy or 200 litre drum
